TRADE.

Since our last weekly issue we have had two fine rains in this vicinity, and so far as we can learn they have been general, not only all over our own State but broughout North Mississippi, Alaban a, Arkansus and Kentucky. The cotton tops are reported in good condition and pening more rapidly than ever known efore. In some sections, however, the wing to the drouth. The want of rain is felt probably more immediately in the ountry adjacent to Memphis than any-

where else. Trade during the week has been fair the leading articles needed upon the plant- at \$20(22) on levee.

In dry goods we have no material change fall trade come in more extensively, and XXX and Fancy, \$8 to \$10 50. the campaign will soon open in earnest, ountry merchants have been in fown oking around, and we are pleased to say that they are making all their arrangeents to buy in this market during the oming season. They have found by emparison that the dealers of Memphis an not only sell goods as low and on as favorable terms as anywhere else, but that their stocks present as wide a range

There is positively a dearth of news in the way of Stocks and Bonds. With no transactions, quotations are nominal.

City, County and Police Scrips are quiet and generally steady. The demand is only in a small way, and offerings are tight. There is, no speculative feeling the management of the rulers. In Nashville, for instance, are four or ask best and shoe

It is but right that, after this these men should have some voice public affairs; but in all these war poises, among employees and employees, here has been, for four yours, only one yoter in each, and that was the negro por-

We know one merchant in this lim in Tennessee, worth more than a quarte of a million, much or it in real estate; b did not serve in the army, and showed in more sympathy for the rebellion than in was obliged to. This man was disfran-chised for four years, and could not vot-even for a Town Constable. Similar in stances were met with all over the State and when the fact is taken into consider ation that the rulers of the State, for the past four years, have created a debt of nearly or quite twenty millions of dellars, it is no wonder that trade and connerce have languished.
